Uka Tarasadi university

Bachelor of Technology in Computer Science & Engineering

Current CGPA: 7.81

August 2021 – April 2025

Bardoli, Gujarat, INDIA

Technology Stacks

- JavaScript
- Node JS
- Express
- Tailwind.CSS
- React JS
- MySQL
- Bootstrap
- MongoDB

Experience

Yogya Capital

December 2023 - March 2024

Associate Software Engineer, Surat

India

- Successfully completed assigned tasks, including integrating NSE chat functionality into projects..
- Presently focused on developing a dynamic dashboard for enhanced project functionality, improved efficiency.
- Demonstrated proactive problem-solving skills and commitment to excellence in web development.

Excel Sheet View

Mapping Excel Data

Sept 2024, India

- Successfully developed a React app to map and display Excel sheet data using the Google Sheets API, ensuring seamless data retrieval and visualization.
- Demonstrated strong problem-solving skills and expertise in integrating external APIs, enhancing data accessibility and user experience.

TechReale

December 2024 - June 2025

Junior Node.Js Developer, Intern, Valsad

India

- Interned at TechReale, gaining expertise in JavaScript, I am proficient in React.js and experienced in integrating APIs seamlessly.
- I have worked on the Blog Management System and Caredac projects, where I was responsible for developing REST APIs using Node.js, Express.js, MongoDB, and JWT for secure authentication. My role included designing database schemas, implementing user role management, handling CRUD operations, and integrating APIs with the frontend for seamless functionality.

Self-managed Project

CM Placement Services

January 2025, India

- CM Placement Services is a MERN-based job placement platform that connects job seekers with employers, providing job listings and application tracking.
- It enhances recruitment efficiency with automated matching and a user-friendly interface.
